

Summary

Java Developer with over 5+ years of experience in designing, developing, and deploying web-based enterprise applications using Core Java, Spring (Core, MVC), Hibernate/JPA, RESTful web services, and Oracle. Experienced in UI development with HTML, CSS, JavaScript, and JSP. Adept at debugging, unit testing, and performance tuning. A quick learner with a strong zeal to explore new technologies, and a collaborative team player with excellent communication and presentation skills, capable of thriving under pressure.

Professional Experience

Evoke Technologies

April 2024-Current

Technical Associate

- Developed and enhanced RESTful APIs using Spring Boot, focusing on high availability, security, and performance
- Created and integrated new menu items and features in the UI application for improved user interaction
- Designed, optimized, and maintained PL/SQL procedures to support efficient backend data operations
- Developed and deployed a Registry Polling microservice using Spring Boot with Quartz scheduling, secure EPP/TLS communication, pluggable registry interfaces, JAXB-based XML parsing, and Oracle CLOB storage.
- Migrated application observability from Splunk to Elastic Observability, including log, metric, and alerts and monitors.

Technical Environment: Java, Spring Batch, Spring Boot, Groovy Grails, Oracle, GSP, HTML/CSS/JS, Spring Scheduler, Microservices

Mitratesh India LLP(Product-Based)

November 2021-April 2024

Software Engineer I

- Developed and enhanced workflow wizards using Spring MVC and RESTful Web Services to reduce time delays and improve process efficiency.
- Enhanced existing UI by adding new fields, modifying data tables, and improving responsiveness using HTML, CSS, and JavaScript.
- Implemented dynamic client-side behaviours using jQuery and JSP, improving user interaction and form validations.

Technical Environment: Core Java, Spring MVC, Hibernate/JPA, Restful Webservices, Oracle, JSP, HTML/CSS/JS

Dynata (Survey Sampling International)

December 2019-November 2021

Survey Programmer

- Analysis, design, development and testing of survey questionnaire

- Coordinated with clients to resolve issues and verify data post-launch

Technical Environment: Core Java, CMIX, HTML/CSS, JavaScript/jQuery

Skills

Technologies: Core java, JavaScript, HTML/CSS
Frameworks: Spring MVC, Spring Boot, Spring Batch, Hibernate/JPA, Groovy
Grails, Spring Scheduler, ReactJs, Microservices
Database: Oracle, MySQL
Tools: Bit Bucket, Git Hub, JIRA, Maven, Jenkins

Education

Ideal Institute of Technology, Kakinada
Bachelor of Technology: EEE

May 2019

Projects

Title: Collaborati, Teamconnect(CSM)

Nov 2021 – Mar 2024

Role: *Java Full Stack Developer*
